HONGKONG OFFICE: 10A, DES VŒUX ROAD C LONDON OFFICE: 131, FLEET STREET, E.C.

The Daily Press.

HONGKONG, DECEMBER 4th, 1911.

We regret to learn that Dr Francis Clark, Medical Officer of Health, met with a somewhat serious accident at the Skating Rink last night.

Singapore papers announce the death of Mr. H. Abrams, a familiar figure in Singapore life. Mr. Abrams died in a London nursing home.

The following telegram was received by the American Consulate General from the Manila Observatory at 12.30 p.m. yesterday: Cyclone or Typhoon S. of Guam, direction unknown.

Capt. E. C. Norman, The Buffs, has been appointed Acting Aide-de-Camp to Major-General T. E. Stephenson, C.B., the Officer Commanding the Troops at Singapore.

Mr. M. H. de Young, proprietor of the San Francisco "Chronicle," arrived in Hong Kong yesterday by the "Hitachi-Maru" from Japan accompanied by Mrs. de Young and their two daughters.

The Chinese community of Hongkong are raising subscriptions on behalf of the sufferers in the Yangtze Valley. A strong local committee has been formed, and the charitable institutions have been invited to co-operate. Ten thousand dollars were collected on Sunday.

A small fire broke out early yesterday morning at No. 230, Queen's Road West. It originated on the top floor and spread to the top floor of the adjoining buildings. The Fire Brigade however made short work of the blaze and little damage was done. The two floors were covered by about \$1,000 insurance.

It having come to the notice of the proprietor of the Empire Theatre that certain rumours are going round that he organised the fight in the Empire Theatre on Saturday night, Mr. Ramos wishes it to be clearly understood that the Empire Hall was hired for the fight by Mr. Nicol, of the Imperial Hotel, and that Mr. Ramos had nothing whatsoever to do with the Boxing Contests.

When the steamer "On Loo" from Keng-Moon, arrived at Hongkong, on Sunday, a young Chinese was seen by a police officer to drop a handbag on the jetty. The officer made investigation and found that the bag contained nine revolvers, all of a cheap foreign make, and a couple of absolute muskets. The Chinaman appeared before Mr. Irving at the magistracy yesterday, and was charged with unlawfully having arms in his possession. He was fined \$200 or six weeks imprisonment, and six strokes.

On Saturday there was a large gathering of the members of the Zoroastrian Club and their wives to bid farewell to one of their most enthusiastic members, Mr. D. C. Nazir, who is proceeding to Calcutta by the "Namsang." A flashlight photo of the party having been taken by Mao Cheong, they all sat to dinner, during the course of which the Band of the K.O.Y.L.I. played selections, through the kindness of Lieut. Col. L. A. H. Hamilton and Officers of the regiment. A very enjoyable evening was spent and the loyal and other toasts were drunk. A response to the toast of "The Ladies" was made by Mrs. P. E. Shroff.

We are requested by Bishop Pozzoni to state that a special Mission, which will probably last about a week, will shortly be given at the Cathedral of the Immaculate Conception, Glenside, by the Rev. Father Lynch, of the Redemptorist Order in the Far East. The Redemptorist Fathers are now holding a similar Mission in the Philippines, where the services held have been very largely attended by the Catholic congregation, including many distinguished visitors. The Rev. Father Lynch is well known in the Catholic world as an orator of considerable eloquence and high attainments. Bishop Pozzoni extends a cordial invitation to all to attend the Mission. The order of exercises cannot be announced until after the arrival of Father Lynch, who is expected from Manila by the s.s. "Rubi." It has been arranged that the evening exercise may commence at 6.30 p.m. each day, and it is expected to last an hour. Through the courtesy of seaholders there will be no special allocation of seats, all the pews excepting two being available to all without reservation during the Mission.

HONGKONG TROOPS FOR THE NORTH

Garrison orders yesterday contained the following:—The following troops will embark on the s.s. Kuangang to-morrow (Tuesday) morning: General Staff, 1 officer; 1st Bn. K.O.Y.L.I., 4 officers and 100 men; R.G.A., 2 officers and 25 men, with two mountain guns; R.E., 1 officer and 20 men; A.E.C., 1 officer and 2 men; A.O.C., 1 man; R.A.M.C., 1 officer and 4 men. Total, 10 officers and 152 men. They will embark at the A.S.C. Pier at 8.30 a.m. The lighter will ship the mountain guns at Kowloon.

THE ECCENTRICS.

Mr. Fred Coyne, late of the Bandmann Opera Co., opened a short season at the Theatre Royal last night, with his small though talented company of artists. The house was very encouraging, all parts being well filled. The programme was composed of songs and dances and a couple of sketches. Individually the members of the company have excellent voices, and in the chorus work they were appreciable. The company will play to-night and to-morrow night.

LATEST SHIPPING NEWS.

The Ben Line str. Benlary from Leith, Middleburgh, and London, left Singapore on the 3rd inst. for this port.

The s.s. Afghan Prince left Karan yesterday and is due here on Friday afternoon and will be ready to receive cargo immediately after arrival.

The S.H.K. s.s. Empress of India which left here on the 4th Nov. arrived at New York on the 1st inst.

TELEGRAMS.

THROUGH REUTER'S AGENCY.

THE DUBAR.

London, December 4th. Their Majesties landed at Bombay yesterday and lunched at Government House. They attended a service at the Cathedral in the evening.

Reuter's correspondent at Delhi cables that a fire took place at the Coronation camp, due to the fusing of an electric wire. The fire ruined the camp of the Lieutenant-Governor of the Punjab, destroying five main reception and dining room tents.

LATER. A quantity of silver tapestry was destroyed in the fire.

THE WAR IN TRIPOLI.

LONDON, December 4th.

One thousand Turks and Arabs attacked Derna, but were repulsed by the Italian artillery.

Reuter's correspondent at Perim cables that the bombardment killed one and wounded another. Two dhows were sunk and a few huts burned. A cruiser afterwards sank twelve dhows at Yokul and bombarded Duba, where were 1250 Turks with five guns. Three soldiers were slightly wounded.

RUSSIA AND PERSIA.

LONDON, December 4th.

Reuter's correspondent at Teheran wires that 2,000 Russian troops have arrived thirty miles south of Resht, and 200 at Kasvin, where they disarmed the local Persian militia. Twenty men have gone to Teheran to re-inforce the legation guard.

MONGOLIA'S INDEPENDENCE
DECLARED.

LONDON, December 4.

Reuter's correspondent at Peking cables that the independence of Mongolia has been declared at Urga, where the Chinese have been dismissed.

CHINESE TRAINING CRUISER.

LONDON, December 4.

Chinese officers are training on the cruiser "Yingwei," which was specially equipped with the greatest variety of machinery and armaments. The ship made successful trials, attaining a speed of 21½ knots.

ANGLO-AUSTRALIAN CRICKET.

LONDON, December 4th.

Brisbane telegrams report that Hitch is confined to his bed through a severe strain of the groin and will not be able to play until Saturday.

LATER. The weather was warm and the sky overcast when the match between Marylebone and Queensland was resumed to-day. The attendance was small. A terrific thunderstorm on Saturday night with a tropical downpour of rain rendered the wicket tricky. Queensland carried their score to only 124. Foster taking six wickets for 31 and Barnes securing four for 49. Marylebone knocked up 140 for the loss of three wickets, thus winning by seven wickets. Mead's contribution was 54 not out.

ANGLO-GERMAN RELATIONS.

LONDON, December 4th.

Reuter's correspondent at Berlin telegraphs that the influential conservative newspaper the "Post" opines that Great Britain and not Germany has reached the end of her tether in the matter of naval construction. It questions whether Great Britain is able to carry out the principle of two keels to one if Germany lays down four or five ships yearly without enlisting foreigners or resorting to conscription.

CONGO REFORMS.

LONDON, December 4th.

Brussels telegrams state that the Socialist leader, M. Vandervelde, has introduced a bill into the Chamber of Deputies providing for a Parliamentary inquiry into the enforcement of the reforms in the Congo.

Mr. Vandervelde has published a statement which makes a formidable indictment of the manner in which the reforms are carried out, and declares that the laws are loosely administered, and that irregularities in the Catholic missions, including the flogging of natives and the manufacture of liquor, are going unpunished.

TELEGRAMS.

[THROUGH REUTER'S AGENCY.]

A SUFFRAGETTE "MARTYR."

LONDON, December 4.

Mrs. Petrick Lawrence, who was sentenced to imprisonment for a month for assaulting policemen in connection with a Womanhood Suffrage raid, has been released on bail, pending a trial in regard to the legality of the conviction.

OBITUARIES.

LONDON, December 4.

The death has occurred of Mr. William Canton, the author of several books and poems, at the age of 66 years.

The death has occurred of Lord Teignmouth at the age of 71. He was the third baron, and was lately a Lieutenant-Colonel of the North York Rifles.

THE REVOLUTION.

THE FIGHTING AT HANKOW.

TERRIBLE SACRIFICE OF LIFE.

Travelers arriving at Shanghai from Hankow last week gave terrible accounts of the ferocity of the struggle around Hanyang. Fighting seems to have continued through November 22, 23, and 24. This was the heaviest engagement that has yet been known. The Red Cross people are quite unable to deal with the number of wounded men. Up to the evening of the 23rd, the total number of wounded (the number of dead is quite beyond computing) was estimated on a conservative basis at 2,000. The Imperialists are taking their wounded men forty miles away up the line. The Red Cross Society has 660 men in hospital.

RIVAL FORCES.

The 5th Division from the North has now arrived to reinforce the Imperialists. The total number of the Division was given as 10,000, but of these 5,000 have been left to guard the railway. All told, the numbers on the Imperialist side at Hankow are estimated at 24,000 men. Against these the Revolutionary forces were computed at about 40,000, but the number fluctuates, as it is said that men may be serving with the colours one day and another day be following their private business. Since the beginning of the latest engagement, the revolutionary forces are believed to have risen to between fifty and sixty thousand.

AT SEVEN MILE CREEK.

The two cruisers referred to in reports from Hankow are apparently trying to blow up the bridge on Seven Mile Creek. Without much success hitherto, according to the "N.C. Daily News" informant. The latter, on his way down stream, passed on the night of the 26th, forty junks containing large numbers of men and thirteen launches conveyed by a cruiser, which were on their way up river to reinforce the revolutionaries who had effected a landing on the north bank of the Yangtze, but on the wrong side of Seven Mile Creek.

On the 24th, this informant saw a launch going down the river with two junks full of soldiers. Directly they got under fire, the Imperial batteries sank the launch with well-directed shots. She went down in shallow water and the men on board the junks could be seen running up the bank, the shells from the Imperial batteries continually bursting amongst them.

This informant further states that the Imperialist troops are well provided in all respects. The fighting on both sides is conducted with extraordinary coolness and bravery.

SIAMU MURDER CONFIRMED.

The news is confirmed that Mrs. Beckman and six children of the Scandinavian Alliance Mission at Siamu were killed, also Mr. Wayne. Mrs. Beckman was the mother of the school for missionaries' children, and Mr. Wayne was a teacher in it. Mr. Beckman with a baby in his arms escaped and has not been heard from. The other missionaries at Siamu are supposed to be safe in the city. Others of the Scandinavian Mission are supposed to be in hiding.

YUAN SHI KAI'S VIEWS.

According to a London telegram appearing in a northern Chinese newspaper the Peking correspondent of "The Times" in a conversation with Yuan Shih Kai made the following suggestions.

First—The revolutionary movement is a protest against the weakening of China by the impairment of her sovereign rights under the corrupt influence of a decadent Court.

Second—The revolutionary forces are directed to increasing the strength and solidarity of the Nation, not towards disintegration.

Third—No fact is more insistent than the determination of many of the best provinces in concert that no compromise will be made which permits retention of the Manchu dynasty.

Fourth—The retention of so unified and unpopular a dynasty is inevitably a disruptive influence, and certainly not a mollifying force.

Fifth—The British monarchy is trusted, while the Manchu monarchy is distrusted.

Yuan Shih Kai gave the following reasons for his policy.

First—If the dynasty should be suddenly removed there would be internal wrangling which would lead to anarchy, in which foreign interests would suffer and lives be endangered, leading perhaps to intervention and partition of the country.

Second—The aims of the revolutionaries are divergent. Those of the north cannot be reconciled with those of the south. Seven-tenths of the population of the Empire is still conservative, and will be satisfied to retain the monarchy. If the revolutionaries succeed in overthrowing the dynasty and establishing another monarchy or a republic, another revolution headed by conservatives might occur.

THE IMPERIAL OATH.

The Peking correspondent of the N.C. Daily News telegraphing on November 26th said:—The Imperial oath to observe the nineteen articles of the Constitution was taken at noon to-day. All high officials were present. An Imperial edict has been issued as follows:—The dynasty has reigned for nearly 300 years. Since My enthronement I have tried to carry out the constitutional scheme, but My politics and My employment of men have not been wise. Thus the recent troubles arose. Fearing the fall of the dynasty I follow the Tsechenyuan's advice and swear to uphold the nineteen constitutional articles and quickly to promulgate Parliament.

A SCHEME OF COMPROMISE.

Yuan Shih Kai states that he has arranged a scheme of compromise which he believes will be acceptable to all parties.

RETURN OF SHANTUNG.

The Waiwup states that Shantung has cancelled its declaration of independence and has asked the Government to provide Tls. 50,000 to carry on the provincial administration.

THE EXPORT OF CHINESE PORK.

LOCAL GOVERNMENT BOARD REPORT.

During a recent official visit to China Dr. Reginald Farrar, medical inspector, Local Government Board, received instructions to inquire into the export of Chinese pork to England, which has been the subject of questions in the House of Commons. This report, dated October 25, has now been published by the Local Government Board (Food Reports, No. 16).

So far as Dr. Farrar could ascertain, pork is only being exported to England from two places in China, viz. from Hankow on the Yangtze River and from Harbin in Manchuria. It is proposed, however, to export pork from Shanghai. A prejudice is entertained among European residents in certain parts of China, and has been transmitted to England, against the use of Chinese pork on the ground that the Chinese pig is said to be a scavenger pig that feeds on garbage, and is, therefore, likely to become the vehicle of parasitic diseases. It is true, says Dr. Farrar, that in many villages of China pigs are to be seen rooting about in the streets and feeding on garbage. It is also probable that these animals are eventually eaten by poor persons of the coolie class, and many Europeans have apparently jumped to the conclusion that the Chinese pork which is exported to England is derived from animals of this class. But not only the pigs that are exported to England, but in general those also which are sold in the native markets for consumption by the Chinese, are grain-fed pigs reared on farms under conditions which compare favourably with those that obtain in England. To Dr. Farrar's knowledge pork is freely eaten by Europeans in such places as Shanghai, Hankow, and Harbin. Pork is the staple meat food throughout China; the pork that the doctor has seen exposed for sale in native shops has been nearly always good fat meat, whereas the scavenger pigs, of which one or two may be seen in most villages, are lean skinny animals with pendulous bellies that tell of the unsanitary nature of their food. They are generally old sows of no use for fattening. The Chinese are a frugal people who throw very little foodstuff to waste, and it is not reasonable to suppose that fat pork sufficient for the demands of the population could be fed on the scanty garbage that is to be picked up in the streets of a Chinese village. It is, moreover, unlikely that a firm which is trying to establish a trade in the English market, and successful trade in pork or bacon competing against the markets of the world would find it to their profit to export lean scavenger pigs fed on garbage. He adds that within his experience the average Chinaman is as dainty in his feeding as the average Englishman, and the idea of eating garbage-fed pork is as repugnant to the respectable Chinese as it is to ourselves. The Chinese word for home (chia) is represented by an ideographic character which signifies a pig under a roof. The fact indicates that the pig in China has for many centuries been regarded as a domesticated animal.

As regards the liability of the Chinese pig to parasitic diseases he could find no evidence to justify the belief that such diseases occur more commonly in Chinese than in English pigs. It has been suggested that there might be objection to the use of pork derived from plague-infected districts in China. But Professor Zahodny, who was one of the Russian delegates to the International Plague Conference, assures Dr. Farrar that he has found the pig, though susceptible to infection by large doses of plague culture, to be relatively highly resistant in this respect.

In Hankow the inspection precautions are described as fairly stringent at present, but it is pointed out that the incentive to expend money in inspection may diminish if China becomes a recognized source of supply of frozen pork and pork products. In Harbin the Russian Imperial meat inspection regulations are in force. In Shanghai all the animals killed by the exporting company are inspected by veterinary surgeons.

CHILDREN OF FAR CATHAY

A SOCIAL AND POLITICAL NOVEL OF ABSORBING INTEREST.

By CHAS. J. HALCOMBE (Formerly of the Imperial Chinese Customs Service, Author of "The Mystic Flowery Land," etc.).

THE VOLUME which consists of 146 Pages, and includes a Sketch Plan of historical interest showing the disposition of the forces at the battle of Kwidin, is dedicated to Sir ROBERT HART, G.C.M.G., and Dr. A. BERNIE.

In description of Chinese Social Customs and Superstitions combined with the insight it gives into political conditions in China, makes "CHILDREN OF FAR CATHAY" an excellent volume for presentation to friends at home.

Well bound in Yellow Cloth with Chinese Emblem in Gold.

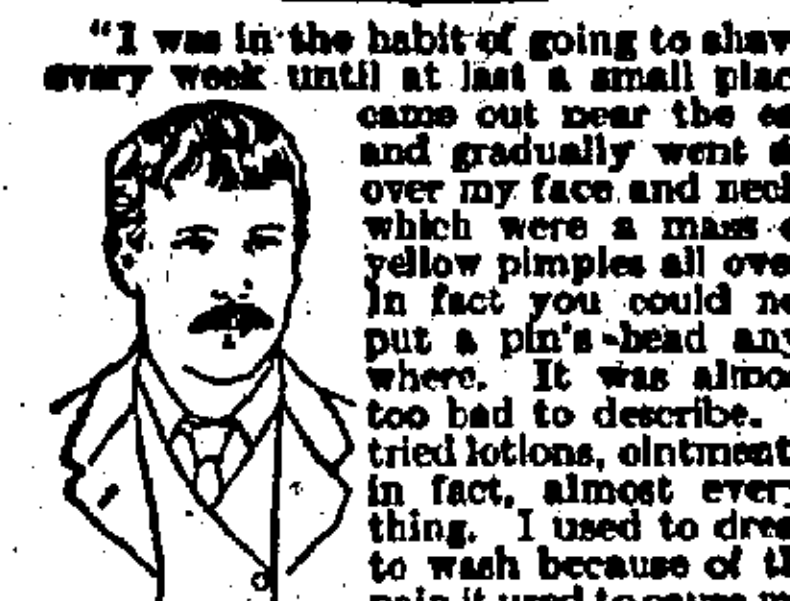

PRICE \$3.50

To be obtained from Messrs. KELLY & WALSH, LTD., Messrs. BREWER & Co., or from the Printers and Publishers, the "HONGKONG DAILY PRESS" Office.

INTIMATIONS

FACE AND NECK
MASS OF PIMPLES

Was Almost Too Bad to Describe. Dreaded to Wash Because of Pain. Spent Pounds on Treatments which Failed to Cure. After 5 Long Years Tried Cuticura Ointment and Soap. They Cured Him.

"I was in the habit of going to shave every week until at last a small place came out near the ear and gradually went all over my face and neck, which were a mass of yellow pimples all over. In fact you could not put a pin's-head anywhere. It was almost too bad to describe. I tried lotions, ointments, in fact, almost everything. I used to dread to wash because of the pain it used to cause me. I also went to the hospital for months, which did me no good. I spent pounds in different ointments and lotions which all failed to cure, so a friend at Falmouth asked me if I ever tried Cuticura Remedy and so persuaded me that I tried Cuticura Ointment, four boxes, and four cakes of Cuticura Soap, which proved to be the best things for me and completely cured me. After five long years they cured me in about four months. I cannot praise them too highly." (Signed) Frank Revell, 47, East St., Newton Abbot, Devon, England, Jan. 3, 1910. This letter shows that Cuticura Soap and Ointment often succeed when all else fails. Sold throughout the world. Depot, London, 27, Charterhouse St.; Paris, 10, Rue de la Chaussee d'Antin; Australia, 11, Town & Co., Sydney; India, 1, K. P. Chatterjee & Co., Calcutta; Africa, London, Ltd., Cape Town, etc.; U. S. A., J. C. Potter Drug & Cosmetic Co., New York, N. Y., and all druggists. Free, 32-page Cuticura Book, a complete guide to the cure and treatment of skin and scalp from infancy to age.

SANATOGEN

THE CUP OF HEALTH AND HEALING

FOR THE SEVEN AGES OF MAN

EVERY age of life in Shakespeare's immortal "Seven Ages" is prone to diseases which undermine the nervous system and deplete the vitality. Sanatogen, the world-renowned revitaliser, is the remedy of remedies to overcome these disabilities and restore to the normal any incorrect action of the bodily functions.

For Wasting.
In the disorders of "The Infant," Sanatogen will overcome the retarding influence of disease and enable the little one to develop into a robust "School Boy," when a teaspoonful with each meal will make and keep him strong and healthy. When, like "The Lover" and "The Soldier," he is fighting for his position in the world, and is liable to be struck down by nervous and wasting diseases, draughts from the "Cup of Health" enable him to continue the fight with unimpaired vigour.

For Nervous Breakdown.
The years take him into the condition of "The Justice," and he prefers a sedentary to an active life—then Sanatogen is equally efficacious in maintaining that equilibrium which physicians call health. As age advances, and, through the gradual disintegration of the tissues, he becomes the "lean and slippered Pantaloon," Sanatogen staves off the ravages of time, while in the "Last Scene" of extreme old age it feeds the flickering flame and prolongs life as nothing else has ever done.

SANATOGEN is a white powder, a chemical compound of glycerophosphate of sodium, the active principle of the nervous system, with milk protein, the chief body-building food which, when mixed with water, milk, or other liquid, becomes the veritable "Cup of Health and Healing." In all forms of nervous diseases with their train of alarming symptoms, like loss of memory, depression of spirits, lassitude, insomnia, etc., it rapidly restores the tissue which has been lost.

King Edward VII's Physician.
Dr. Ott, Marienbad, praises Sanatogen very highly, and says:—"I have been using Sanatogen for a number of years in my practice with excellent results—notably in cases of elderly people when it was desirable to build up the strength and stimulate the bodily functions."

The Hon. Mr. Justice Robertson.
Judge Chief Court, Lahore, writes:—"My experience so far with Sanatogen has been very favourable. I took it for some weeks during the most trying season of the year—June, July, August—in Lahore and the Punjab plains, and found it a great strengthener." Sanatogen may be obtained of all chemists and bazaars. An interesting booklet, "How to Keep Well in Tropical Climates," will be sent post free, on application, to all mentioning this paper. Address:—Messrs. A. S. Watson & Co., Hongkong and Shanghai.

TO BE SURE—the Teeth are so important that it would be a pity to neglect them—especially when you can clean them so well and so easily with

When on the Sick-list

a man's usefulness and enjoyment of life are about nil. He feels perhaps a burden to himself and a trouble to others. The cheerfulness natural to him is sadly overcast by the depression caused by continual indisposition. The sun of Good Health lies behind a black cloud, and before the warm rays can again rejoice him, that cloud must be dispersed. If such is your experience you should

Take

steps to ensure an immediate return of health and strength. This means that you should put your digestive organs in perfect order—cleanse the liver—regulate the bowels and kidneys—purify the blood—tone up the nervous system. To effect this thoroughly and completely you should put yourself through a course of that medicine which has proved of such exceptional value in so many cases—namely
